Creativity

“There is no doubt that creativity is the most important human resource of all. Without creativity there would be no progress, and we would be forever repeating the same patterns”

Entrepreneurship

DECISION TO BECOME AN ENTREPRENEUR

نصيحة من أغنى رجل في الصين

"jack ma" والذي **ثروته** تقدر بـ 39 مليار دولار - يقول : لو وضعت نقود وموز أمام القروء ؟؟ فان القروء ستختار الموز ، لأنهم لا يعرفون أن **النقود** تشتري موزا أكثر. ! ولو عملت نفس الشيء مع أغلب الناس وخيرتهم بين مشروع وبين مرتب شهري في وظيفة لاختار **الأغلبية** الوظيفة الشهرية، لأنهم لا يعرفون أن المشاريع تجلب نقودا أكثر من المرتب الشهري وتغير **الحياة** تماما .. من الأشياء التي تجعل الناس فقراء، هي أنهم لم يتعلموا أن يروا الفرص التي تأتي من المشاريع. لأنه طوال عمرهم وهم يتعلمون في **المدارس** أن العمل دائما يكون من أجل الوظيفة الشهرية، وتعلموا أنهم بدلا من أن يعملوا لأنفسهم **سيعملون** لدى الغير !! .. من الافضل ان نلوم نظام التعليم لأنه علم الناس أن يكونوا فقراء تابعين لغيرهم في الوظائف بدلا من أن **يتعلموا** كيف يكونوا اصحاب مشاريع . !

Who is an Entrepreneur

- One who creates a new business in the face of risk and uncertainty for the purpose of achieving profit and growth by identifying opportunities and assembling the necessary resources to capitalize on them.

Why to Become an Entrepreneur?

The three primary reasons that people become entrepreneurs and start their own firms

Desire to be their own boss

Desire to pursue their own ideas

Financial rewards

الطموح اللامحدود هو الوقود الذي يساعد الإنسان على الوصول إلى طريق النجاح

Introduction to Entrepreneurship

- There is tremendous interest in entrepreneurship in Palestine and around the world.
- Having a motivation to start and run a business is not enough
 - Also need:
 - A solid business idea
 - Good financial management
 - Effective execution

What is Entrepreneurship? (1 of 3)

- Entrepreneurship is the process by which individuals pursue opportunities without regard to resources they currently control.
 - Entrepreneurs assemble and then integrate all the resources needed—the money, the people, the business model, the strategy—to transform an invention or an idea into a viable business.

What is Entrepreneurship? (2 of 3)

- **Corporate Entrepreneurship**
 - Is the conceptualization of entrepreneurship at the firm level.
 - All firms fall along a conceptual continuum that ranges from highly conservative to highly entrepreneurial.
 - The position of a firm on this continuum is referred to as its entrepreneurial intensity.

What is Entrepreneurship? (3 of 3)

Entrepreneurial Firms

- Proactive
- Innovative
- Risk taking

Conservative Firms

- Take a more “wait and see” posture
- Less innovative
- Risk averse (تجنب المخاطر)

Characteristics of Successful Entrepreneurs (1 of 3)

Characteristics of Successful Entrepreneurs (2 of 3)

Passion (شغف) for the Business

- The number one characteristic shared by successful entrepreneurs is a passion for the business.
- This passion typically stems from the entrepreneur's belief that the business will positively influence people's lives.

Product/Customer Focus

- A second defining characteristic of successful entrepreneurs is a product/customer focus.
- An entrepreneur's keen focus on products and customers typically stems from the fact that most entrepreneurs are, at heart, craftspeople.

Characteristics of Successful Entrepreneurs (3 of 3)

Tenacity (عناد) Despite Failure

- Because entrepreneurs are typically trying something new, the failure rate is naturally high.
- A defining characteristic for successful entrepreneurs is their ability to persevere through setbacks and failures.

Execution Intelligence (الذكاء التنفيذي)

- The ability to fashion a solid business idea into a viable business is a key characteristic of successful entrepreneurs.

Common Myths about Entrepreneurs (1 of 6)

- **Myth 1: Entrepreneurs Are Born, Not Made**
 - This myth is based on the mistaken belief that some people are genetically predisposed to be entrepreneurs.
 - The consensus of many studies is that no one is “born” to be an entrepreneur; everyone has the potential to become one.
 - Whether someone does or doesn’t become an entrepreneur is a function of their environment, life experiences, and personal choices.

Common Myths about Entrepreneurs (2 of 6)

Although no one is “born” to be an entrepreneur, there are common traits and characteristics of successful entrepreneurs

- A moderate risk taker
- Persuasive
- Promoter
- Resource assembler/leverager
- Creative
- Self-starter
- Tenacious
- Tolerant of ambiguity
- Visionary
- Optimistic disposition
- A networker
- Achievement motivated
- Alert to opportunities
- Self-confident
- Decisive
- Energetic
- A strong work ethic
- Lengthy attention span

Common Myths about Entrepreneurs (3 of 6)

- **Myth 2: Entrepreneurs Are Gamblers**
 - Most entrepreneurs are moderate risk takers.
 - The idea that entrepreneurs are gamblers originates from two sources:
 - Entrepreneurs typically have jobs that are less structured, and so they face a more uncertain set of possibilities than people in traditional jobs.
 - Many entrepreneurs have a strong need to achieve and set challenging goals, a behavior that is often equated with risk taking.

Common Myths about Entrepreneurs (4 of 6)

- **Myth 3: Entrepreneurs Are Motivated Primarily by Money**
 - While it is naïve to think that entrepreneurs don't seek financial rewards, money is rarely the reason entrepreneurs start new firms.
 - In fact, some entrepreneurs warn that the pursuit of money can be distracting.

Common Myths about Entrepreneurs (5 of 6)

- **Myth 4: Entrepreneurs Should Be Young and Energetic**
 - Entrepreneurial activity is fairly evenly spread out over age ranges.
 - While it is important to be energetic, investors often cite the strength of the entrepreneur as their most important criterion in making investment decisions.
 - What makes an entrepreneur “strong” in the eyes of an investor is experience, maturity, a solid reputation, and a track record of success.
 - These criteria favor older rather than younger entrepreneurs.

Common Myths about Entrepreneurs (6 of 6)

- **Myth 5: Entrepreneurs Love the Spotlight**
 - While some entrepreneurs are flamboyant, the vast majority of them do not attract public attention.
 - As evidence of this, consider the following question: “How many entrepreneurs could you name?”
 - Most of us could come up with Jeff Bezos of Amazon.com, Mark Zuckerberg of Meta, Larry Page and Sergey Brin of Google or maybe Elon Musk of Tesla, SpaceX or X.
 - But few could name the founders of Netflix, YouTube, Redditt, Spotify or Alibaba, even though we frequently use those firms’ services.

The Positive Effects of Entrepreneurial Firms

Innovation

- Is the process of creating something new, which is central to the entrepreneurial process.
- Small innovative firms are 16 times more productive than larger innovative firms in terms of patents per employee.

Job Creation

- Small businesses create a substantial number of net new jobs.
- Firms with 500 or fewer employees create 65% of new jobs on an annual basis.

The Positive Effects of Entrepreneurial Firms

Impact on Society

- The innovations of entrepreneurial firms have a dramatic impact on society.
- Think of all the new products and services that make our lives easier, enhance our productivity at work, improve our health, and entertain us in new ways.

Impact on Larger Firms

- Many entrepreneurial firms have built their entire business models around producing products and services that help larger firms become more efficient and effective.
